The identification of the inventors specified on the original Declaration for this application was incorrect. This misidentification of the inventors was made through error and without deceptive intent.

The Official Filing Receipt for this application was issued on January 28, 2002. A corrected Declaration was filed on July 2, 2003 shortly after the error in the inventorship was discovered and the document was signed by the inventors. A Request for Corrected Filing Receipt was filed on October 22, 2003 after this office did not receive a corrected filing receipt by the PTO after its receipt of the Corrected Declaration. A Response to Request for Corrected Filing Receipt was issued by the PTO on November 13, 2003. This Response indicated that a Petition to Correct the Inventorship was required to correct the inventorship of this application. This Petition is being filed as soon as practicable after signature of all the required documents. Accordingly, this document is being timely filed under 37 CFR §§ 1.116 and 1.312.

Attached to this Request are the following documents as specified in 37 CFR § 1.48:

1. A signed statement from all of the inventors indicating that the error in the inventorship occurred without deceptive intention on their part;

MPEP § 605.04(g). Attached is a copy of the Official Filing Receipt with the changes to the filing receipt noted in red.

**LICENSE FOR FOREIGN FILING UNDER
Title 35, United States Code, Section 184
Title 37, Code of Federal Regulations, 5.11 & 5.15**

GRANTED

The applicant has been granted a license under 35 U.S.C. 184, if the phrase "IF REQUIRED, FOREIGN FILING LICENSE GRANTED" followed by a date appears on this form. Such licenses are issued in all applications where the conditions for issuance of a license have been met, regardless of whether or not a license may be required as set forth in 37 CFR 5.15. The scope and limitations of this license are set forth in 37 CFR 5.15(a) unless an earlier license has been issued under 37 CFR 5.15(b). The license is subject to revocation upon written notification. The date indicated is the effective date of the license, unless an earlier license of similar scope has been granted under 37 CFR 5.13 or 5.14.

This license is to be retained by the licensee and may be used at any time on or after the effective date thereof unless it is revoked. This license is automatically transferred to any related applications(s) filed under 37 CFR 1.53(d). This license is not retroactive.

The grant of a license does not in any way lessen the responsibility of a licensee for the security of the subject matter as imposed by any Government contract or the provisions of existing laws relating to espionage and the national security or the export of technical data. Licensees should apprise themselves of current regulations especially with respect to certain countries, of other agencies, particularly the Office of Defense Trade Controls, Department of State (with respect to Arms, Munitions and Implements of War (22 CFR 121-128)); the Office of Export Administration, Department of Commerce (15 CFR 370.10 (j)); the Office of Foreign Assets Control, Department of Treasury (31 CFR Parts 500+) and the Department of Energy.

NOT GRANTED

No license under 35 U.S.C. 184 has been granted at this time, if the phrase "IF REQUIRED, FOREIGN FILING LICENSE GRANTED" DOES NOT appear on this form. Applicant may still petition for a license under 37 CFR 5.12, if a license is desired before the expiration of 6 months from the filing date of the application. If 6 months has lapsed from the filing date of this application and the licensee has not received any indication of a secrecy order under 35 U.S.C. 181, the licensee may foreign file the application pursuant to 37 CFR 5.15(b).

Under the Paperwork Reduction Act of 1995, no persons are required to respond to a collection of information unless it displays a valid OMB control number.
